Dear FCC,
Please reject the NAB's petition 04-160! XM satellite radio has played by the rules since day one. The broadcasters feel threatened by the success of satellite radio. Instead of competing and improving their services, they want the government to protect their businesses by attacking satellite radio. This is an outrage to ME the XM subscriber! I am paying good money to have choice of listening to satellite radio's traffic and weather broadcasts. Please don't take away My freedom of choice just because the NAB feels threatened.

Thank You
